S.S.S. PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which E. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach. Bots with pleasing effects on the nervous system, and reinvigorates every portion of the body.

squarely with Governor Rughes, of New York, on the subject of direct primaries,

"Governor Hughes's declaration has the right ring," he said, "Every legislator must be free to exercise his own judgment. He must be his own man, and owe no allegiance to any other master than the people. The way to secure that is by the direct primary. We can only get that in New Jersey by overthrowing present lobby conditions at the State House. I love the party of Abraham Lincoln, and want to say in it, but I do not want to see it boss-ridden and unresponsive to the popular will. That every boss is against the direct primary is plenary evidence that it is right.

RED MEN PUT UP DESPERATE FIGHT

LANSING, MICH., September 22.—
State Game Warden Piece to-day received from Deputy Jack Rowett, of Bessemer, a report of a battle last Suzday near the Wisconsin line between officers and a band of poaching Wisconsin Indians, who had been killing deer and beaver in Michigan, as their forefathers did before the white men established game laws. Deputy Rowett reports that he went to the Indians camp, and after finding venison and beaver hides, undertook to make an arrest. The six Indians, aided by their five squaws, attacked the deputy and his five men with guns and axes. The officers had but two guns. Rowett finally shot one of the Indians dead who had been potting at him from behind a tree. "The squaws were as bad as the men in the fight," reports Rowett, who adds that bloodshed is inevitable when he again attempts to arrest the red men.

DISPUTED YACHT CASES

WASHINGTON, D. C., September 22.—
The Treasury Department is watching closely the problem which is being worked out in New York regarding the collection of taxes levied on foreign-hullt yachts under the new tariff law. Several yacht owners have paid the tax, but others have been disposed to fight the government, in consequence, the collector of the port has been instructed to confer with the United States District Attorney there on any legal points raised. It is expected that two or three test cases will be brought by the government to recover the tax, each test case involving a different phase of the problem.
